Shooting Affair in Milier's Cove-Desperate Struggle Between a Constable and Prisoner.

MARYVILLE, TENN., Dec. 13, 1875. To the Editors of the Chronicle .

Jack Davis, who had for some time kept suits standing, in which he was defendant, and the State of Tennessee plaintiff, was convicted in several mis demeanor cases, and sentenced to work out the fine and casts in the work-house. Sometime after court, being at work in accordance with the sen-tence, Jack walked off without bid-ding his guard good bye. He has been keeping himself very scarce ever since. until a few days ago the officers heard of his whereabouts, and last Wednesday morning Constable W. W. Freshour, of Tuckaleechee Cove, with a guard, went into the vicinty where Davis was thought to be staying, in Miller's Cove. The Constable and The following resolutions were Miller's Cove. The Constable and guard secreted themselves until a favorable opportunity, when Davis made his appearance, whereupon, Freshour seized him. Upon this, a sharp scuffle ensued, the officer drawing his pistol. whereupon, Davis seized and turned it attempting to shoot Freshour, but the officer placed his thumb on the hipple so that it could'nt fire. About this time Hans Davis, brother to Jack, came up with an axe, trying to interfere. J. A. Snider, the guard, struck Jack Davis with a pistol, which enhalted Freshout to release himself from abled Freshour to release himself from him, and upon this he fired at Hans, the ball taking effect in his leg just be-low the knee. Upon this the Consta-ble gave Jack a blow over the head, which brought him to terms and he now has resumed business in the work-Much credit is due Constable Freshour for his vigilance, daring, and determination in bringing the er to suffer the penalties of the law, as he has become something of a desper-adoe. If all civil officers were as active as Freshour, violators of the law one present, and but one idea seemed to would fare only moderately. w. possess and control the meeting—i. e.,

TEMPERANCE IN CAMPBELL CO.

Rev. J. F. Goldman, Grand Lecturer for the L. O. of G. T. for East Tennessee, has just returned from a two weeks tour in Campbell county, with very gratifying results. Having succeeded in organizing three Lectures.

"Facts are Stubborn Things."

Thousands of human beings are yearly borne on the swift current of disease down to the grave, just because they do not possess a sufficient knowledge of themselves. A man meets his neighbor, and the first salutation is, "How are you?" or "How is your health?" The reply frequently is, "Oh, I am well, with the exception of a cold." Most persons lightly regard a cold. Reader, do you know that a cold is one of the most dangerous of maladies? A cold not only clogs un cold is one of the most dangerous of maladies? A cold not only clogs up the pores of the entire system, and retards circulation, but it is productive of Catarrh, which is quite apt to lead to Consumption. "Oh," you say, "it is nothing but a 'cold' in my head." True; but "that cold" is really a mild form of Catarrh, and if not arrested in its course will become chronic. Catarrh is one of the most disagreeable, offensive affections in the catalogue of diseases. The passage to the nose is obstructed, the sense of smell impaired. obstructed, the sense of smell impaired, obstructed, the sense of smell impaired, and here is a disagreeable sensation of pressure in the head. In the more advanced stages, there is a discharge having an offensive odor. If the discusse be allowed to continue in its course, thick, hard incrustations will form in the head, the bones of which sometimes become softened and break sometimes become softened and break away in pieces. Why will persons continue to suffer from such an annoying, disgusting disease, when they can just as well be cured of it? Dr. Sage's Catarrh Remedy will cure the worst forms of Catarrh; in fact, it is the only sure and safe remedy which has yet been offered to the public has yet been offered to the public. Many barsh, irritating preparations may, for a time, relieve the urgency of the symptoms, but they do not cure the disease. Dr. Sage's Catarrh Remedy is soothing and healing in its effects, and when used with Dr. Pierce's Nasa! Douche, according to directions, does not fail to effect a cure. Sold by all Druggists.

Tweed.

Many people believe that Wm. M. Tweed is hiding in or near this city. Certain facts which give color to this opinion are detailed in our local columns. It is at least to be said in favor of this theory that it is as well, if not better supported than any of the guesses that include a journey abroad, since all of the latter have thus far failed to indicate his mode of departure to a foreign country.—N. Kind Words.

Kind words never blister the tongue or lips. And we have never heard of any mental trouble arising from this quarter. Though they do not cost much, yet they accomplish much. They help offe's own good nature and good-will. Soft words softer our own soul. Angry words are fuel to the flame of wrath, and make it burn more flercely. Kind words make other people good-natured. Cold words freeze people, and hot words scorch them, and bitter ple good-natured. Cold words freeze people, and hot words scorch them, and bitter words make bitter, and wrathful words make them wrathful. There is such a rush of all other kinds of words in our day, that it seems desirable to give words a chance among them. There are vain words, and profine words, and boisterous words, and idle words, and silly words, and hasty words, and spiteful words, and empty words, and writke words. Kind words also produce their own image on men's souls. And a heautiful image it is. They soothe, and quiet, and comfort the hearer. souts. And a deadurit image it is. They soothe, and quiet, and comfort the hearer. They shame him out of his sour, morose, unkind feelings. We have not yet begun to use kind words in such abundance as they ought to be used.
